Charging for any application

Auto dealerships

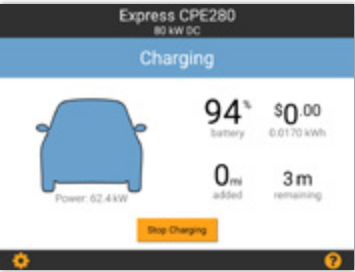

Fleet

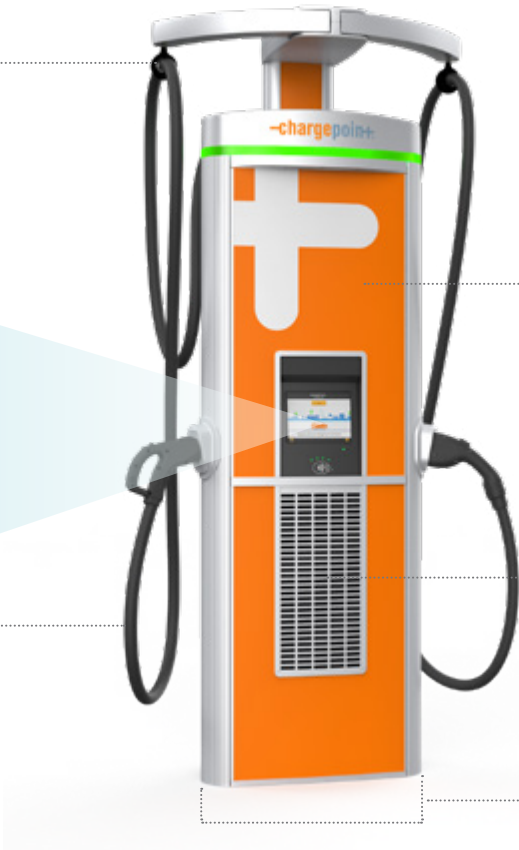

Commercial

Proprietary cable management design enables ease in charging while also keeping cables off the ground.

Provide a superior driver experience with custom offers and seamless integration with mobile apps, in-vehicle displays and back-end systems.

Charge any EV on the road with flexible cable and connector options.

Branded stations help drivers associate your brand with sustainability and an excellent charging experience.

Ventilation supports high power for optimal performance.

A small footprint, about half that of other solutions on the market, gives the flexibility to place stations where needed.
